Message from the Vice-Chancellor

Welcome to the long-awaited updated Prospectus of Academic Programmes the Catholic University of Malawi is offering. This new Prospectus marks an important chapter in our quest to becoming a responsive, dynamic and student-centred University. Today, we live in an era where students making decisions on higher education require far more 'upfront' information and greater certainty about what a particular university is offering than was the case in the past. In this vein, you will find in the pages that follow useful information about the width and the breadth of the range of courses on offer.

Starting from its humble beginnings, the University has grown both in terms of the programmes on offer and enrolment – growing from initially having two faculties (Education and Social Sciences) with an initial student population of 127 in 2006 to the current seven Faculties (Education, Social Sciences, Science Commerce, Theology, Law, Nursing and Midwifery) and thirty-two academic programmes. So, much as the following pages are a presentation of the programmes and the requirements, there are also a celebration of the growth of the university and an effort to enhance and facilitate current student experience as well as bringing the university close to prospective students.

The Catholic University has over the years earned a reputation of producing graduates of a distinct calibre:

properly trained, properly motivated and solidly grounded in their areas of study! We're proud to provide our students with a holistic education, founded on innovation, excellence and ethics. The Holistic approach to higher education that has become part of CUNIMA ensures that our graduates are useful and reliable citizens who will make a difference in our country and beyond.

Going forward into the future, the Catholic University of Malawi can only go in one direction: carrying on with the legacy of being the Centre of Excellence for Quality and Holistic Education!

I hope this prospectus goes a long way in achieving this our goal. For students currently with us, I wish you the very best of everything with your studies and for prospective students, I look forward to welcoming you on campus soon.

Rev. Fr. Dr. George Buleya
The Vice-Chancellor

CENTRES

The Catholic University established two centres and two directorates as instruments for strengthening organizational learning and fostering meaningful contribution to society. The following are the centres and directorates currently in operation:

Centre for Socio-Theological Studies

The Centre, established in May, 2009, is designed to offer high quality short courses on socio-theological issues of national importance in order to foster the ongoing formation for pastors/priests, religious, laity and implementers of faith based socio-economic programmes. The following are the specific objectives of the Centre:

A.To provide ongoing formation for priests/pastors and religious on socio-theological issues with a view to empowering them with requisite knowledge and skills for addressing 21st-century challenges.

B.To offer formation in Christian faith to lay people and other Church collaborators engaged in the implementation of health, education, social justice and development programmes.

C.To provide thought leadership on matters relating to the interaction between the timeless Word of God and the dynamic human condition.

Centre for Environmental Affairs

The Centre seeks to respond to the cry of the earth by promoting intellectual and cultural habits consistent with the ethics of integral ecology. It takes Pope Francis' encyclical *Laudato Si'* (2015) as its Magna Carta.

MAGGA CU Chapter Planting trees in Thyolo

The Centre's operations are also guided by the United Nations' Sustainable Development Goals (SDGs) enunciated in 2015, especially SDG 6 (clean water), SDG 7 (clean energy), SDG 12 (responsible consumption), SDG 13 (climate action), SDG 14 (life under water), and SDG 15 (life on land). Malawi's grand strategy, dubbed Malawi 2063 – inspired by the African Union's Agenda 2063 – also identifies environmental sustainability as one of the enablers for Malawi's vision of attaining an inclusively wealthy and self-reliant nation by 2063.

Among the specific objectives of the Centre for Environmental Affairs are the following:

A.To spearhead reflection on the interplay between the nation's development agenda and environmental sustainability.

B.To conduct and publish research on issues relating to the environment.

C.To lobby, through various fora, for legislation that fosters the ethics of integral ecology.

D.To engage the business community in charting a path toward sustainable business practices.

E.Act as an Information Service Centre and in-house resource centre for use by interested parties in all areas of environmental studies and natural resource management.

Directorate of Research and Publication

One of the principal mandates of institutions of higher learning is research and the dissemination of knowledge through publication. The Directorate of Research and Publication is thus tasked with the responsibility of promoting, facilitating and coordinating research initiatives both within the institution and in collaboration with other stakeholders. One of the outlets for research work is the Journal of Catholic University of Malawi (JOCUNIMA), an inter-disciplinary publication. Further, a publications and innovation gallery has been created as a privileged space for exhibiting works published by the University's staff.

THE FEELING OF BEING AT THE CATHOLIC UNIVERSITY OF MALAWI

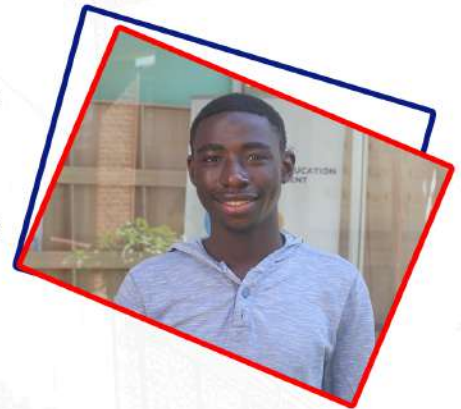

From stories you hear about the Catholic University of Malawi outside, I would like to assure you that they are not true. I have developed a strong bond to my religion and they don't force any student to go to Catholic Church. I believe that, in 4 years, I will be a great leader with great moral values. (Fatuma Atuwani Ntandama)

STUDENT LIFE

Chaplaincy

The University has a chaplaincy office that exercises what theologians call the ministry of presence. The office is available to all students, for their moral and spiritual life. The chaplaincy office provides a “safe space” for heart-to-heart dialogue.

While the office of the Chaplaincy is founded on religious values, this ministry goes beyond spiritual care, for it adopts an integral view of the human person. The chaplaincy, thus, attends to various facets of human life—physical, emotion, social, spiritual and intellectual.

The mission of the office of the Chaplaincy is to walk with students in the vicissitudes of their lives: joys and sorrows, gallantry and fear.
